

Care & Use – Vacuum Bottles and Food Jars

Information on how to treat your Stanley Vacuum bottle.

CAUTION!

- DO NOT use in microwave, oven or dishwasher!
- Wash all parts in warm soapy water and then rinse clean before using.
- Don't overfill your vacuum bottle or food jar with hot drinks. It could spill and scald you.
- When filled with hot liquid keep out of reach of children.
- To prevent spills, make sure your lid and stopper are screwed on completely before use.
- Do not use with carbonated or fermenting foods or beverages.
- Do not use for baby or children's food containing dairy products.

CARE & USE OF YOUR VACUUM BOTTLE or FOOD JAR

- To clean, wash with warm water and mild detergent. Let stand for five minutes. Pour out and rinse clean with warm water. Wash with mild detergent with a soft, damp cloth or sponge and rub dry.
- If interior becomes stained, use a mixture of two teaspoons baking soda and warm water. Let stand open for one hour before rinsing thoroughly.
- To remove stubborn stains leave filled overnight with solution of warm water and baking soda with lid/stopper loosely secure for ventilation. Soaking overnight produces excellent results.
- Do not use bleach or cleansers containing chlorine to clean.
- For bottles, to pour turn stopper one full turn to indicated arrows assuring stopper does not come off when pouring.

FOR BEST RESULTS

- Preheat or pre-cool your vacuum bottle by filling it with hot tap water or cold water.
- Let stand for five minutes.
- Empty bottle and immediately fill with your favorite hot or cold beverage.
